

## GUÐRÚN MARTEINSDÓTTIR, PHD

Professor  
University of Iceland  
Institute of Biology  
Askja, Sturlugata 7  
101 Reykjavik, Iceland  
runam@hi.is  
<http://www.marice.is/gm>  
<http://www.marice.is>  
<http://www.marine.is>

### **PERSONAL:**

Born: Iceland, 8. January 1955.

Husband: Professor Kristberg Kristbergsson, Dept. Food Science and Human Nutrition, University of Iceland

### **EDUCATION:**

Ph.D., Dept. Biological Sciences, Rutgers University, New Brunswick, New Jersey, USA. 1991.  
Dissertation: Early life history variation of the mummichog (*Fundulus heteroclitus*): Egg size variation and its significance in reproduction and survival of eggs and larvae.

M.S., Dept. Biological Sciences, Rutgers University, New Brunswick, New Jersey, USA. 1984.  
Dissertation: Electrophoretic and Morphological Variation in Icelandic Charr (*Salvelinus alpinus*).

B.S., Dept. Science and Engineering, University of Iceland, Reykjavík, Iceland. 1979.

### **ACADEMIC HONORS AND RESEARCH GRANTS:**

Leathem Fund, Rutgers University, 1983, 1984, 1985, 1986.

Russel Fund, Rutgers University, 1985.

Raney Award, The Amer. Soc. of Ichthyologists and Herpetologists, 1985.

The American-Scandinavian Foundation, 1985.

NATO Science Fellowship, 1985.

Lerner-Gray Fund for Marine Research of the American Museum of Natural History, 1986.

New Jersey, Marine Science Consortium, Minigrant, 1986.

New Jersey State Mosquito Control Commission, 1986.

Summer Fellowship, Little Egg Inlet Marine Field Station, Rutgers University, 1986.

Icelandic Science Council, 1989, 1990, 1991

Best Newcomer Award, ICES 1995

Icelandic Research Council, 1993, 1994, 1995, 1996, 1999-2002, 2002, 2003, 2001-2005

The Technology Development Fund 2010

The Icelandic Research Fund 2006-2008

The Ministry of Fisheries Research fund 2007-2009, 2008-2010

Specific funding from the Ministry of Fisheries, annually during 1994-2003, 2007  
 European Commission, 1996-1997 (4FP), 1999-2001 (5FP: STEREO), 2001-2005 (5FP:  
 METACOD), 2005-2008 (6FP: FISHACE), 2006-2007 (6FP: GENIMPACT), 2007-2009  
 (7FP: FINE).  
 Ministry of Fisheries, AVS 2002, 2003, 2005, 2005, 2006-2008, 2007  
 University of Iceland, Research Fund 2004, 2005, 2006, 2007, 2008, 2009

### **PROFESSIONAL EXPERIENCE:**

2001 – Present	PROFESSOR OF FISHERY SCIENCES, Department of Biology, University of Iceland.
1991-2001	SCIENTIST, Marine Research Institute of Iceland
2005-Present	ICES/GLOBEC working group on Cod and Climate Change
2004-2006	MEMBER of the Programme Committee for Global change and Ecosystems. Priority 6.3, European Commission, 6 <sup>th</sup> FP
2007-2009	NATIONAL EXPERT; Environment (including climate change). Priority 6; European Commission, 7 <sup>th</sup> FP
2006-Present	MEMBER of the Advisory group for Thematic priority 2 “Food, Agriculture and Biotechnology, European Commission, 7 <sup>th</sup> FP
1998-present	NAFO Working Group of Reproductive Potentials.
1996-2001	ICES Living Resources Science Committee
2010-2011	COORDINATOR. Nationally funded project :Marsýn „Oceanographic Consulting Service
2007-2010	COORDINATOR. Nationally funded project on “the importance of diversity in terms of stock structure, life history and behavior for the survival of the cod stock in Iceland”
2007-2009	COORDINATOR. Nationally funded project on: Impact of freshwater runoff on physical and biotic ocean conditions dictating successful reproduction and recruitment of cod
2006-2009	EU funded project MARIFISH “Coordination of European Marine Fisheries Research Programme”
2006-2009	COORDINATOR. Nationally funded project on “Improved gain and productivity of the lobster fishery”.
2005-2006	COORDINATOR. Nationally funded project on “Reproductive compatibility of wild and reared cod”.
2005-2007	PARTNER in the EU funded project GENIMPACT: Evaluation of genetic

- impact of aquaculture activities on native populations – A European network (6<sup>th</sup> frame: 22802)
- 2005-2008 PARTNER in the Marie Curie project FishACE: Fisheries-Induced adaptive changes in exploited stocks; student network (6<sup>th</sup> frame:5578).
- 2001-2005 COORDINATOR. EU funded project: QLRT – 2000 – 00953. METACOD: The role of sub-stock structure in the maintainance of cod metapopulations.
- 2001-2005 COORDINATOR. Nationally funded project on “The Population Structure of Cod in Icelandic Waters”
- 1993 – 2001 PRINCIPAL INVESTIGATOR AND PROGRAM LEADER: Marine Research Institute, Iceland. Reproduction and Recruitment of cod in Icelandic - The influence of stock structure and environmental conditions on the recruitment processes of cod.
- 1999-2001 COORDINATOR. Nationally funded project on “Cod Recruitment Processes – Integrating Stock and Environmental Effects”.
- 1998-2001 TASK LEADER AND HEAD OF THE ICELANDIC RESEARCH TEAM. EU funded project: FAIR-PL98-4122, “An operational model of the effects of stock structure and spatio-temporal factors on recruitment (STEREO)”.
- 1996-1997 TASK LEADER AND HEAD OF THE ICELANDIC RESEARCH TEAM. EU funded project: FAIR-CT95-0084, “Recruitment processes in cod and haddock: Developing new approaches”.
- 1991-1993 PRINCIPAL INVESTIGATOR Marine Research Institute, Iceland. Distribution and population dynamics of the Greenland halibut. Initiation of surveys that later developed into the autumn ground fish survey. Changes in stock structure and abundance during high fishing effort. Aging and stock assessment in 1991-1993.
- 1990-1992 CO-INVESTIGATOR, Marine Research Institute, Iceland. Tagging of spawning cod at local spawning sites East of the country.
- 1990-1991 CO - INVESTIGATOR, Marine Research Institute, Iceland. Distribution and abundance of the female Lump sucker. Modeling of the annual , seasonal and daily variation in catch per unit effort in coastal areas around Iceland.
- 1989-1990 CO - INVESTIGATOR, Marine Research Institute, Iceland. Eiders as a by catch in gill-nets employed by the lump sucker fishery: Estimates of mortality based on fisherman’s log-books.
- 1990-1991 PRINCIPAL INVESTIGATOR, Institute of Freshwater Fisheries, Iceland. Funded by the Icelandic Research Council. Genetic and morphological variation within and between Atlantic salmon populations from 32 Icelandic rivers and three fish farms. The genetic analysis was preformed with electrophoresis and morphological analysis was based on distances within a size-free shape Truss network.

- 1989-1990            PRINCIPAL INVESTIGATOR, Institute of Freshwater Fisheries and the Marine Research Institute. Funded by the Icelandic Science Council. Morphometrical discrimination between parrs of three Atlantic salmon stocks. Morphological and meristic comparisons were made between salmon parrs at different developmental stages originating from rivers of different physical characteristics.
- 1987-1988            EDITORIAL ASSISTANT, *EVOLUTION*, International Journal of Organic Evolution.
- 1987                    TEACHING ASSISTANT in Ichthyology, Dept. Biological Sciences, Rutgers University, NJ, USA.
- 1983-1986            GRADUATE ASSISTANT, Center for Coastal and Environmental Sciences, Rutgers University, NJ, USA. Research on reproduction and recruitment mechanism of coastal fishes.
- 1984                    CO-INVESTIGATOR, Center for Coastal and Environmental Sciences, NJ, USA. Investigation of Management Alternatives for the Herring River Estuary (Cape Cod National Seashore, USA, National Parks).
- 1978-1979            RESEARCH ASSISTANT during summers. Dept. Biol. University of Iceland, Environmental effects on life cycles of *Simulidae* spp.
- 1979                    RESEARCH ASSISTANT during summers. Lake Thingvallavatn Research Program, Sampling for primary production estimates in Lake Thingvallavatn.

### **POST DOCTORAL FELLOWS**

Dr. Heidi Pardoe, Modeler (2010-present)  
 Dr. Bruce McAdams, Modeler (2008-present)  
 Dr. Tim Garbowski, Fish Ecologist (2007-present)  
 Dr. Kai Logemann, Oceanographic modeler (2005-present)  
 Dr. Gavin Begg, Fish Ecologist (1998-2001)

### **GRADUATE STUDENTS**

#### ***PhD completed:***

Heidi Pardoe, Spatial and Temporal Variation in Life History Traits of Atlantic Cod (*Gadus morhua*) in Icelandic Waters. Háskóli Íslands, 10. December 2009.

Ingibjörg Jónsdóttir : Population structure of cod based on otolith shape and chemistry 7. September 2007.

***PhD ongoing:***

Klara Jakobsdóttir: Historical variation in genetic diversity within the Icelandic cod stock.

Jónas Páll Jónasson: Effects of currents and other environmental factors on recruitment of cod in Icelandic waters.

Heather Philp: Improved gain and productivity of the lobster fishery in Iceland

***MS – completed:***

Lísa Anne Anbungan Local adaptation and variation in life history reaction norms within the Icelandic cod stock. MS (90 ECTS), Háskóla Íslands 7 desember 2009.

Lilja Stefánsdóttir: Climate effects and changes in composition of deep water fish fauna in Icelandic waters (completed in October 2008)

Erna Óskarsdóttir: Spatial and temporal distribution of five species of chimeras (Pisces: Chimaeriformes) in Icelandic waters (completed in October 2008)

Kristín Harðardóttir: Atresia in Icelandic cod (*Gadus morhua* L.) prior to and during spawning. University of Bergen, Norway (completed 2001).

Anna Rósa Böðvarsdóttir: Aquaculture in Iceland: Licensing Process, Monitoring and Environmental Impact Assessment. Univ. Iceland (completed 2004)

Ásgeir Gunnarson: Growth, maturity and fecundity of wolffish (*Anarhichas lupus* L.) in Icelandic waters. Univ. Iceland (completed 2004)

Gróa Þ. Pétursdóttir: Discrimination between Icelandic cod (*Gadus morhua* L.) stocks from adjacent spawning grounds based on otolith growth and shape. Univ. Iceland (completed 2004).

Jónas P. Jónasson: The effects of environment and fisheries on the status of Iceland scallop. Univ. Iceland (completed 2005).

Kristinn H. Sæmundsson: Geographic distribution and dispersal of juvenile Icelandic cod (*Gadus morhua*). Univ. Iceland (completed 2005).

Leo A. Guðmundsson. Spatial and temporal genetic composition of Atlantic salmon (*Salmo salar*) in River Elliðaár, Iceland. (completed 2007)

Hlynur Ármannsson. Comparisons of life history characteristic between saithe populations (*Pollachius virens*) in Icelandic and Canadian waters (completed 2007)

Sólveig Krista Einarsdóttir: Effects of condition and growth on maturity of haddock (completed 2008)

***MS- ongoing:***

Sigríður Kristinsdóttir: Marine Parks in Icelandic waters.

Egill Guðmundsson. Role of sound in spawning behaviour of cod

Lovísa Ólöf Guðmundsdóttir. Reproduction among subpopulations of Atlantic cod

Elfur Erna Harðardóttir. Behaviour, migration and growth of cod in relation to otolith microstructure.

**SYMPOSIUM/THEME SESSION CONVENER OR MEMBER OF STEERING COMMITTEES**

Conducted and directed: Atlantic cod: Intra-stock diversity and the implication for management“ Annual Marine symposium in Reykjavik 10. December 2009

Workshop (chair) on Fisheries management worldwide: How to manage intraspecific diversity? Hobart, Tasmania, Australia 14-16 October 2009.

Steering Committee: Ecosystem Dynamics in the Norwegian Sea and Barents Sea. Univ. Tromsø Norway, 12-15 March, 2007.

Co-convener: Fish population structure: implications to conservations. The Fishery Society of British Isles. Annual International Symposium 2006. Univ. Aberdeen July 10-14, 2006.

Co-convener: Theme Session on Advances in Reproductive Biology: Methodology and Applications for Fisheries Science (Q); ICES Annual Science Conference, Aberdeen, 2005.

Scientific committee: Ecological and Evolutionary Ethology of Fishes, EEEF 2004 at Saudarkrokur, Iceland.

Steering committee: 37<sup>th</sup> European Marine Biology Symposium, Univ. Iceland, August 2002, Reykjavik, Iceland.

Co-convener: Theme session on Cod and Haddock Recruitment Processes – Integrating Stock and Environmental Effects at the ICES Annual Science Conference 1999.

## KEY NOTES

Effects of fishing on inter- and intra-stock variation of marine resources. Fisheries for Global Welfare and Environment, 5th World Fisheries Congress 2008, Yokohama, Japan

Has man learned to manage cod? IMR/PINRO Symposium, Polar Environment Centre, Tromsø, 21-23 August, 2007

The importance of sub-stock units in spawning and stock structure of cod at Iceland. MRI 40<sup>th</sup> Anniversary Symposium Reykjavík, 7. November 2005

Gain and productivity of the cod fishery in Iceland. Inst. Biology, Anniversary Symposium in Reykjavik, 19.-20. November, 2004.

The effect of climate variability on growth, maturity and recruitment. ICES symposium on the influence of climate change on north Atlantic fish stocks. Bergen, Norway 11.-14. May 2004.

Can we improve stock-recruitment relationships by including maternal effects. 27th Annual Larval Fish Conference. 20-23. August, 2003, Santa Cruz, California, USA
